

Tripod Turnstile (GA-VT1000)

Description : Vertical Tripod Turnstile
Model No : S-VT1000

Key Features

- Cabinet & Internal Structure is in 304 SS grade.
- Length of Swing Arm 500 to 550mm
- With drop arm features
- Unlock Time 0.6 second
- Passing Speed 30-40 Person/Min.
- Passing Width 500-550mm
- Power Supply AC220,50/60Hz
- Operational Voltage Motor (24V)
- Working Temp -10°C to +60°C
- Protection Level IP55
- Electro Mechanical Drive DC
- Dimension Excluding Bars (H980xW480xD280mm)(H980xW480xD280mm)

Technical Specifications

- Cabinet/Body Structure : SS304 Grade
- Open angle: 90°
- Operational : Voltage 24V
- Pass speed: 30 ~ 40 Person/Minutes
- Motor: Electro Mechanical
- Power Voltage : AC220 ± 10%, 50Hz
- Operation condition : -10oC ~ 60oC
- Structure : Frame or 304 Stainless steel cover

- Open direction : Single and Double(Optional)
- Work environment :Indoor and Outdoor (with Canopy)
- Working Current : ≤ 2000 mA
- IP Degree : IP55
- Length of the bar: Swing Arm 500mm ~ 550mm
- Service life : ≥ 5million
- Width of passage: ≤ 550 mm
- Dimension :980x480x280mm
