

Sliding Gate (GA-ASLG)

Description : Automatic Entrance Gate

Model No : GA-ASLG

Key Features

- Less Power consumption.
- Heavy duty motor which gives 500+ operations per day.
- Innovative and elegant look.
- Safe guard against accidents.
- Control and security in your hand.
- Protection against the heating element.
- Fast opening and closing.
- Higher protection level.
- Smooth Operations.
- Low maintenance cost.
- Microprocessor based controller deliver extremely effective energy saving high speed, high torque and non-warming features which gives continuous operations.

Technical Specifications

- Power Supply:230V
- Operating speed: 0.24 m/sec
- Max Thrust Force : 600N
- Motor Capacity : 240 W
- Current Absorb : 1.5 amp
- Max Gate weight : 800 kg
- Rack Module: 4 Module Rack

- Weight Of the operator : 10kg
- Protection grade: IP44
- Daily cycle suggested : 500
- Service: 70%
- Operating temperature: -35 to +55 °C
- Maximum Opening: 15m
